

Proposed DRS default transfer process

We are proposing that in undefended DRS cases, the complainant should have the right to a transfer of the domain name registration on payment of a fee of £200 (plus VAT).
Please read our consultation paper for full details of this proposed default transfer process and then answer the questions below.

This document contains respondents between 6 and 6 inclusive.

1. What do you think about our proposal for a default transfer process?

- I agree with the proposal
- I don't mind one way or the other
- I disagree with the proposal

2. Please give your reasons for why you feel this way about the proposal

Too many domain names are not being used by the registrant. If a third party has a genuine interest in using the name, and the registrant can not take the time to respond to a request for a transfer or hearing then the default position should be that a transfer is allowed so that the domain name can be used.

3. Please give us your contact details
