

Proposed DRS default transfer process

We are proposing that in undefended DRS cases, the complainant should have the right to a transfer of the domain name registration on payment of a fee of £200 (plus VAT).
Please read our consultation paper for full details of this proposed default transfer process and then answer the questions below.

This document contains respondents between 21 and 21 inclusive.

1. What do you think about our proposal for a default transfer process?

- I agree with the proposal
- I don't mind one way or the other
- I disagree with the proposal

2. Please give your reasons for why you feel this way about the proposal

Our domain name was left in limbo by a previous web design company. It the was hijacked by a porn site leaving us waiting weeks to get it sorted out.
The better idea would be to immediately point any disputed domain to a nominet holding page until the process is carried out.

3. Please give us your contact details

Name

Kevin Sinclair
