

Proposed DRS default transfer process

We are proposing that in undefended DRS cases, the complainant should have the right to a transfer of the domain name registration on payment of a fee of £200 (plus VAT).
Please read our consultation paper for full details of this proposed default transfer process and then answer the questions below.

This document contains respondents between 61 and 61 inclusive.

1. What do you think about our proposal for a default transfer process?

I agree with the proposal

I don't mind one way or the other

I disagree with the proposal

2. Please give your reasons for why you feel this way about the proposal

This is insane to me, not responding due to being away or in hospital is not an admission fo guilt or wrong doing. This would clearly send out the wrong signal to peopel who would then feel taking a £10 pop at old geenric domains may be worth it to steal them with your help.

3. Please give us your contact details
