

Proposed DRS default transfer process

We are proposing that in undefended DRS cases, the complainant should have the right to a transfer of the domain name registration on payment of a fee of £200 (plus VAT).
Please read our consultation paper for full details of this proposed default transfer process and then answer the questions below.

This document contains respondents between 128 and 128 inclusive.

1. What do you think about our proposal for a default transfer process?

- I agree with the proposal
- I don't mind one way or the other
- I disagree with the proposal

2. Please give your reasons for why you feel this way about the proposal

The new proposal is a joke!!! It will create many problems including favour complainants, increase the cost for respondents, and speculative DRS attempts.

3. Please give us your contact details
