

PAB Resolutions: 12 January 2005

Paragraph numbers reflect agenda item numbers.

5. Proposal to Restructure .uk (paper)

In the light of strong consensus amongst stakeholders, the PAB unanimously resolved to recommend that no changes are made with respect to opening up registrations at the second level within “.uk”.

Noted

6. .net.uk Review (paper) – Executive

The PAB resolved to recommend that a working group chaired by Sebastien Lahtinen be created to examine the rules for “.net.uk”, and to request to draft a charter to be presented to the Working Group Subcommittee (WGSC) for approval.

Noted

The PAB resolved to request the board to produce a paper detailing to what extent changing the rules for an SLD requires additional procedural hurdles including but not limited to reapplication under the new SLD procedure.

Approved. Passed to the executive for action.

8. Automaton Nameserver Check (paper) – Jay Daley

The PAB resolved to recommend that the check on the TLD of nameserver records held in the register move from the zone file build process to the Automaton at the point of registration or modification and that any operation that fails this check at this point is prevented from completing and returns an appropriate error message.

Approved. In progress as action point for the executive.

9. Amendment to WHOIS output (paper) – Jay Daley

The PAB resolved to recommend that the WHOIS output be changed to no longer display the IP addresses of nameservers where that information is not held on the register, providing that the absence of IP addresses is satisfactorily explained either in the WHOIS response or at a link therein.

Approved Passed to the executive for action.

10. Amendment to PAB rules (paper) – Executive

The PAB resolved to request the board that the executive redraft the PAB rules to clarify them and resolve such ambiguities and logical defects as have been identified, in each case with minimal policy changes, and to present the draft changes as a paper to the next PAB meeting.

Approved. Passed to the executive for action.

11. Publication of statistics on tagholders (paper) – Executive

The PAB resolved to recommend the policy change of publishing monthly statistics about tags, including the number of domains per tag, the number of new registrations per month, the number of renewals per month, and the number transferred in and out per month. The PAB further resolved to recommend that publication should take place on a fixed day each month, and that that reasonable warning of the policy change should be given to tagholders.

Agreed
